PROFESSIONAL SUMMARY

Experience Designer / UX-CX Designer with a Master's in Interaction & Experience Design and 3+ years of experience delivering end-to-end customer and service solutions. Skilled in user research, journey mapping, service blueprinting, and design thinking, turning insights into clear, actionable recommendations that improve engagement, margin, and operational efficiency. Experienced in facilitating innovation workshops, coordinating project processes and documentation, and presenting findings to multidisciplinary stakeholders in fast-paced, results-driven environments.

SKILLS

UX/UI Design: User Research · Interaction Design · Wireframing · Prototyping, Usability Testing · A/B Testing · Heuristic Evaluation, Accessibility (WCAG) · Design Systems · Service Design

Design Tools: Figma · Sketch · Framer · Adobe XD · Miro · Notion · Affinity · Canva · Photoshop

AI Design Tools: Claude Design.Framer AI · UXTweak AI · Dovetail AI · UX Writing · Vibe Coding

Front-End: HTML · CSS · JavaScript · TypeScript · React.js

Data & Cloud: Tableau · Power BI · Google Cloud Platform (GCP) · AWS. BigQuery · ServiceNow · GitHub

Core Competencies: Problem Solving, Strategic Thinking, Analytical Skills, Decision Making, Change Management, Verbal Communication, Written Communication

WORK EXPERIENCE

Freelance (Peter's Restaurant, AJ Auto Spa)

Ireland | September 2025 – Present

UX/CX / Business Design Consultant

- Led end-to-end UX/UI and content design (menus, digital displays, brand assets) using Figma, Canva, and Adobe XD, contributing to an estimated 25–30% increase in customer engagement and in-store visibility.
- Conducted on-ground analysis at Peter's Restaurant using Miro for journey mapping, identifying gaps in customer flow, billing, and delivery operations, improving process efficiency by ~20% and reducing service delays by 15%.
- Resolved critical UX/technical issues (QR code errors, Android redirection) to improve system reliability and customer access.
- Drove digital marketing and content strategy for AJ Auto Spa using Canva and Photoshop, boosting online reach and engagement by 40%+, while contributing to ~20% growth in customer acquisition through campaigns and content.
- Developed service blueprints and customer journey maps using Miro and Figma for Peter's Restaurant, mapping 15+ touchpoints across dine-in, takeaway, and delivery operations to identify friction points and streamline end-to-end service delivery.
- Delivered research findings and design recommendations using visual storyboards (Figma, Miro) and interactive prototypes (Framer), securing stakeholder buy-in for all proposed service improvements.

Aspira

Chennai, India | March 2023 – April 2024

UX UI Designer

- Spearheaded end-to-end design lifecycles for enterprise digital platforms, utilizing Innovation Strategy to align cross-functional stakeholder requirements with user research to deliver solutions that increased engagement by 40%.
- Conducted comprehensive user research, heuristic evaluations, and A/B testing to identify usability gaps; iterated designs using data-driven feedback to enhance user satisfaction.
- Optimized design-to-development handoff by implementing reusable component libraries, reducing production time by 15% and improving cross-functional efficiency.
- Ensured all designs met WCAG accessibility standards using responsive design principles, improving accessibility compliance by 25%.
- Mentored junior designers through design reviews and test case development, elevating overall team output and design quality.
- Drove adoption of a reusable component library across the design–development workflow, training and coaching 5+ developers on the new system, achieving full team adoption within 2 sprints and reducing production time by 15%.

UX Designer | Operations, Business Intelligence & Reporting

- Conducted user research (interviews, surveys, usability testing) on an e-commerce platform, identifying that 60% of users abandoned cart due to unclear checkout flow, directly informing a redesign that improved conversion rates.
- Redesigned navigation structure and checkout flow reducing steps from 5 to 3, resulting in a 40% improvement in task completion rate and a more user-friendly shopping experience.
- Sole owner of the Tableau ecosystem end-to-end, maintaining 100% uptime and delivering 20% faster server performance through proactive troubleshooting.
- Designed business-aligned dashboards that improved organisational decision-making by 25% and platform adoption by 40%
- Led migration from on-premises Tableau to Google Cloud (BigQuery integration), reducing infrastructure costs by 15%.

PROJECTS

Hybrid Work Experience Planner

Jan 2026 - Feb 2026

- Designed a data-driven hybrid work planning tool optimising scheduling and collaboration. Surveys with 30+ employees and 8 stakeholder interviews reduced scheduling conflicts by ~40%, adopted by 50+ team members.

Balanci: Designing for International Students' Work-Study Balance

Sep 2025 - Oct 2025

- Applied probe methodology and user-centered design to research international students' work-study balance challenges. Mapped end-to-end student journeys and created service blueprints, resulting in a prototype application featuring a widget tool designed to support their daily management and wellbeing.

Designing Mindful Moments

Nov 2025 - Dec 2025

- UX case study preventing lost-item incidents in ride-hailing apps via end-of-trip confirmation and dual reminders. Survey of 20 users (70% reported incidents) informed design; 10-user test achieved 90% recall rate.

Enhancing Gardening with Smart Tech & Design

July 2025 - Sep 2025

- Designed and developed a physical IoT-embedded prototype to enhance the interaction and connection between humans and nature, integrating smart technology with user-centered design principles.

Assist Now

April 2023 - April 2023

- Redesigned a customer analytical dashboard (CAD) to simplify timeline management. Used Figma and data visualisation to clarify key metrics, reducing task oversight by ~30%.

EDUCATION

University of Limerick

Limerick, Ireland | September 2025

Masters in Interaction and Experience Design

SRM Institute of Technology

Chennai, India | April 2021

Bachelors Of Science Computer Science

VOLUNTEERING & LEADERSHIP

Aspira Institute

Mentorship: Assistant Mentor

- Supported peers through design reviews, guided the design process, and upheld quality standards across team deliverables.

Infosys

Leadership: Scrum Master

- Facilitated sprint ceremonies, removed blockers, and improved team coordination and delivery cadence across agile projects.
- Facilitated design thinking sprints and ideation workshops with cross-functional teams, guiding participants through the full design process from problem framing to solution synthesis and prioritisation.
